LEAKBOT®

Most Recent Coverage:

�LeakBot, a provider of IoT leak detection technology for insurance companies and a part of Walsall, UK-based HomeServe Labs, the innovation arm of HomeServe (HSV:LSE), could soon be spun out into an independent company, CEO Craig Foster said.
Brief Summary:

LeakBot monitors homes 24/7 for hidden leaks and bursts that are detected by its sensor which is installed by homeowners. Instant alerts are sent to a homeowner's smartphone if there is a burst. When a leak is detected, LeakBot will arrange for an approved expert plumber to find and fix it. (Founded 2017)

0xcert

Most Recent Coverage:

� 0xcert , a company offering an open-source framework for creating, managing and swapping digital assets, is interested in discussing financing options to fund product spin-offs, Chief Strategy Officer Urban Osvald said.

Brief Summary:

The company's toolset allows users to build decentralized applications (DApps) on top of distributed and decentralized systems. Its framework reduces development time, risks and costs associated with developing DApps.

� website

Interesting Fact:

The company has developed a framework but is now advancing proprietary products. 0xcert's plan includes spinning out each product into separate companies, which is likely to require external capital, Osvald said.

Most Recent Coverage:

�ConsenSys, the parent company of Ujo Music, a decentralized platform for music sales and services, could decide to spin-out the unit into a standalone company.
